

Cynthia Tristán Álvarez

Game Developer

#PROFILE

Passionate and resourceful videogame development student looking for a place to help create unique experiences.

Adaptable profile with experience from game jams and college projects, covering gameplay, sound, UI and game flow, with a strong focus on UX, architecture, polish and team coordination and collaboration.

"My passion for my craft, commitment to the team and eagerness to experiment drive me to fulfill the dream of inspiring others just as others once inspired me."
